Subject- 250th postcard

To- Mayor, Township Council and Township Manager,

A township's historical society should always be highlighted during historical anniversaries of town to country.

All the historical societies in Burlington County will highlight this. I know I went to two Roundtable meetings of all the Burlington County Historical Societies.

What a great chance to advertise the Town's historical society which is crucially vital to historical integrity for a twp.

I do not see any mention of the MSHS Open Houses each month.

I see Mason's Hoagie sales etc.

The township has a wrong attitude toward the Maple Shade Historical Society that needs correcting.

And this really might be JUST the town of Maple Shade. Give it a check and see what possible other towns loop out the center agency of the town for history and its celebrations.
